

I am in agreement with all aspects of the ARRL Petition except:

1) Novice, Technician and Tech Plus licensees should have all privileges on the 10 meter band at 200 Watts.

2) Novice, Technician and Tech Plus licensees should be permitted all digital privileges (incl CW) on the 80, 40 and 15 meters at 200 Watts.

These provisions will help integrate newcomer licensees into full participation in the amateur radio hobby. Many newcomers are attracted to the amateur radio hobby because of digital modes.
